Hello! We are USA Girl Scouts Overseas Troop 6 of Atyrau, Kazakhstan. We have 4 Brownies, 3 Juniors and 1 Cadette in our troop. We are with GSUSA but we are a mixed group - Americans, Italians, Canadians, Columbians, Kazakhs and more. Our city is at the mouth of the Ural River, at the north end of the Caspian Sea. The Ural River is considered the border between Europe and Asia. There are big oilfields nearby and fishing and harvesting caviar are also important here. The river freezes in the winter and people ice fish on it. In Kazakhstan, the camel herders live in round houses called “yurts”, but we live in regular houses and apartments as do most Kazakhs. The national language is Kazakh, but most people in our area also speak Russian. This postcard is of the Russian Orthodox church here in Atyrau in January. Happy World Thinking Day!
